REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The general concept of a noise-canceling microphone assembly disposed in various locations in a vehicle in order to collect vocal signals and noise signals to generate an output signal was well known in the art, as evidenced by the reference cited. However, the examiner has not found prior art that teaches or suggests alone or in combination vocal sound input apparatus for an automotive vehicle comprising a receiving microphone and a noise collecting microphone, wherein the noise collecting microphone is disposed in the space between the vehicle body outer plate and the wall of the vehicular passenger compartment, and configured to collect noise in the space between the vehicle body outer plate and the wall of the vehicular passenger compartment, the noise collecting microphone is insulated to prevent the sound signals from the passenger compartment from entering the noise collecting microphone. and the sound signals collected by the receiving microphone and the noise collected by the noise collecting microphone are combined to generate an output signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
